How to clean

Learning how to clean Eternal surfaces is a breeze—thanks to the stain resistance of this exceptional material. Eternal surfaces are tough, non-porous, chemically resistant, and offer high performance, enhancing the aesthetics of residential and commercial interiors with the natural beauty of quartz.

Common Household Spills:

- Toothpaste, Shoe Polish 

Wipe the affected area with a dry cloth, followed by a damp one. Dry thoroughly with a microfiber cloth.

- Grease, Paint, Gum 

Scrape off excess material with a plastic knife. Apply a cloth lightly dampened with ethanol and wipe clean. Dry with a microfiber cloth.

- Ink Marks, Permanent Marker 

Gently remove surface residue with a soft cloth. Apply isopropyl alcohol to the stain, let it sit for 10-15 minutes for permanent marker, then wipe clean.

- Candle Wax 

Scrape off excess wax with a plastic knife. Apply a mild soap solution, let it sit for 5-10 minutes, then rinse thoroughly. Dry with a microfiber cloth.

- Lipstick, Adhesive Residue 🖍️ 🪒

Blot excess oil with a dry cloth. Wash the area with warm water, apply a soap solution, let it sit for 5-10 minutes, then rinse and dry with a microfiber cloth.

Food Spills:

- Red Wine, Lemon Juice, Mustard, Coffee 🍷 🍋 🍷 🍵

Wipe the affected area with a dry cloth, followed by a damp one. Dry thoroughly with a microfiber cloth.

- Tea, Turmeric Powder 🍵 🌶️

Gently remove surface residue with a soft cloth. Apply isopropyl alcohol to the stain and wipe clean.

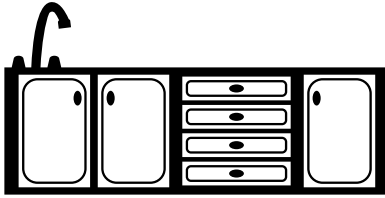

Cutting Boards, Trivets & Heat Protection

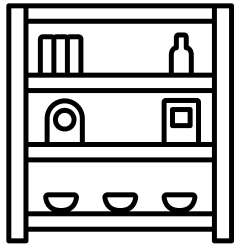

For cutting and chopping any food, always use cutting boards and trivets. Though Eternal surfaces are heat and scratch resistant, they are not heat and scratchproof. Never chop or slice food directly on your worktops. To maintain the beauty of your Eternal surfaces, do not place hot skillets or roasting pans directly onto the surface. Use trivets or pads with hot pots.

Applications

Kitchen Counter-Top

Shelves

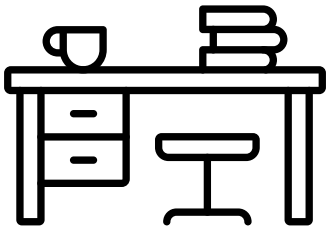

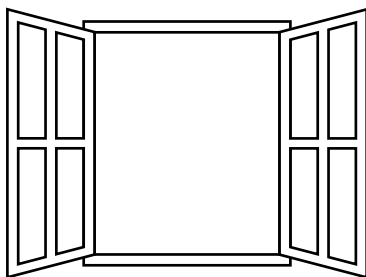

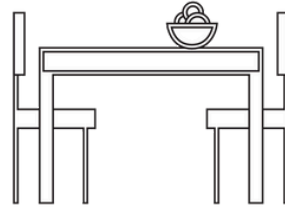

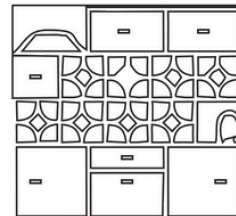

Table Top

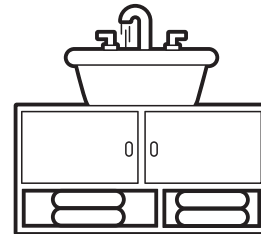

Door & Window
Frame

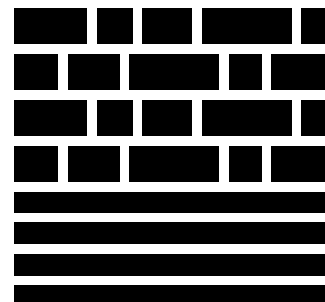

Dinning Table

Backsplash

Vanity Top

Wall Cladding

Terms and Conditions

- Eternal slabs are crafted from natural quartz minerals, which means they naturally exhibit the unique characteristics of quartz. This can lead to some variation in color, subtle shade differences, and texture changes in the finished products. Each slab is distinct, and minor imperfections, along with slight color and texture variations, are considered normal. There may also be differences in color and texture between samples and full slabs. Therefore, it is essential to make your final colour selection after inspecting a full slab.
- Rendered images are for reference purposes only. Due to the natural characteristics of stone, there may be slight variations in color, texture, and pattern between the image and the actual Eternal slab. It is recommended to inspect the slab before making a purchase.
